Friday is our field trip to the International District. Please make sure your children are dressed appropriately we will be outside for the majority of the trip. The students will be taking their shoes off at lunch, please make sure your child can handle their shoes on their own. It is a wise idea to send a snack with your child for the afternoon. We have found that some students do not always eat much at the restaurant. We will have time for a snack when we return in the afternoon. All snacks must be dry in other words no pudding, yogurt anything that is drippy. Fruit, vegetables, crackers, cheese, granola bars any of those would be great! Students must be on time to school on Friday we don't want to leave anyone behind. Please make sure your child is in the classroom at 9:10.

Chaperones please be in our classroom at 8:45 for directions.

Donation Request

I am in need of a class set of cookie sheets. We will be using these as word building boards. I need a jellyroll sheet (a cookie sheet with rims) that measures 12x19. If you would like to donate 1 or more that would be great!

From the Principal's Desk

Periodically, our staff reviews safety rules with our students. As we head into warmer weather and more time outside, this is an excellent time to review these safety tips again and I recommend you also review them with your children.

1. Students should not walk to or from school alone but should walk with a friend.
2. If approached by a stranger, students should run away.
3. If a stranger touches or attempts to grab a student, students should yell and scream.

Talk to your children about the route they should take home and who they should walk with to and from school. If a buddy is not available, students should report to the school office. It is also helpful to "role play" some things a stranger might say to entice them.

We always keep a close watch on our students and know you do the same. Thank you for your continued support of our school and your children. Please let us know if you have any additional questions.

Upcoming Events

Date	Event
5/5	International District Field Trip
