Name the Names

Your child will be coming home with a packet in the next month with their names on it. Inside the packet you will find a poster with your child's name on it and kind words spoken by others. You will also find your child's name cut into puzzle pieces as well as pictures of your child drawn by the class. Each day we will be learning the name of another child. This is a way for us to get to know each other as well as learning about capital letters at the beginning of names, putting letters together to make words and speak about details when writing.

Back to School Night

We hope to see you Tuesday, September 20th at 6:30PM in the lunchroom. We will meet with all three kindergarten classes first and then proceed to our own classrooms to end the evening. This is an evening for parents only.

Class Website
www.inghamgazette.com

My husband graciously runs and maintains our classroom website. You will find current and past gingham gazettes, a class calendar and other fun tidbits. This is a great way to get information about our classroom.

The Circus is Coming!

We are still in need of 75 helium filled balloons! If you would like to donate these balloons please contact me ASAP! The balloons liven up a drab lunchroom and make it look really fun!

Our popcorn parents will be Natalie Henning and Jennifer Doepping. I will send home the bags next week. Balloon tires will be Lynn Gardiner and Terri Weintraub. I will contact you with the details later this week.

Please have all pieces of your child's costume marked with their name. We will be changing into our costumes before the circus and changing out of them afterwards.

Please send a bag with your child's name on it to put their costume into.

Upcoming Events

Date	Event
